mechanism allows changing between color and
monochrome
Advanced intelligent circuit design to increase the
low-light sensitivity 0.1 lux color model down to
0.01 Lux 81W mode (ExView HAD)

This is the world's first and smallest pan/tilt/zoom and Day/Night Armor Dome with IR Filter Mechanism and can withstand virtually any attempt to disable it. With a 1/4" Sony ExView Super HAD CCD Image Sensor, 230X Zoom with a 0.1 LUX, this camera is one of this year's fully weatherproof best sellers.
