

Cylinder Cam PTZ 980CP

FEATURES

GENERAL

CylinderCam® series - now used by police and law enforcement agencies across the world - features a unique space-saving design mechanism allowing it to be fitted and concealed within restricted locations but still providing a 360 degree pan and 40 degree tilt.

The latest Sony EXview HAD CCD colour block has been incorporated offering enhanced image quality, an impressive 312x zoom and low light capability along with many other advanced features. Also featured on the new model is a completely redesigned controller complete with colour monitor. Proportional control is now standard to enable fine adjustment. Many control functions of the CylinderCam® may be controlled via VISCA™/RS-232C.

Typical CylinderCam® hides

For very restricted locations ask for details of CandleCam.

SPECIFICATIONS

- Unique 360° degree pan and 40° tilt mechanism
- EXview HAD CCD™ - 1/4 type
440,000 effective pixels
